

Free to Breathe **Anywhere Walk**

We're so glad you're joining us!

Thank you for your commitment to giving hope to patients and families facing a lung cancer diagnosis! We would love to answer your questions and help you achieve your goals. Please don't hesitate to dash off a quick email!

Watch for a package from us!

We'll be sending all Anywhere Walkers a walk day kit with items to help make your walk experience festive!

Please log into your fundraising success center at LCRF.org/ anywhere and make sure your mailing address is up to date. We will begin sending the kits out in early October.

YOU are a **hopebuilder.** Research couldn't happen without *your* support.

“ I was once a young investigator who received seed funding through LCRF. Funding young investigators is key to keeping the smartest people in the field and **coming up with new ideas** of tomorrow.”
— Lecia Sequist, MD

“ Getting the support I received from LCRF was a form of 'life-support' for an exciting new direction in my laboratory. **Without that support the project may have ended** since I wouldn't have had the resources to hire qualified scientists to do the work.”
— Chad Pecot, MD

“ I received one of my very first grant awards from the Lung Cancer Research Foundation. **My career was launched because of this grant and donors' generosity.**”
— Kwok-Kin Wong, MD, PhD

“ I still have lung cancer, but **because of research funded by people like you, I can live and long and full life.** Who knows what advances are right around the corner?”
— Steve Shelton, lung cancer survivor
